PROFESSIONAL OBJECTIVE

To work as a Full Stack Developer or Systems Strategist in projects requiring a systemic mindset, strategic vision, and the ability to generate measurable business impact through technology.

EDUCATION

Bachelors Degree in Business Administration with emphasis in Information Technology.

PROFESSIONAL SUMMARY

More than 15 years of experience in IT, currently focused on full stack development and designing custom systems that optimize processes, increase productivity, and reduce operational costs.

Recognized as a Systems Strategist, I deliver high-impact solutions end-to-end, from architecture to deployment. Solid experience with Nuxt3, Django, Tailwind CSS, PrimeVue, Celery, and modern web technologies.

Skilled in process automation, API integration, large-scale data handling, and productivity-driven systems for agribusiness and administrative sectors.

Agile mindset, results-driven, strong analytical and communication skills, able to bridge technical development with business needs to deliver scalable and maintainable solutions with strong ROI.

PROFESSIONAL EXPERIENCE

IO INSURE

Position: Backend Developer | Python & Django Specialist (Mar 2023 Jan 2024)
- Built and maintained microservices using Django and Celery.
- Refactored legacy code to improve performance and security.
- Integrated REST APIs and third-party services (webhooks, auth, billing).
- Applied Clean Code principles, unit testing, and Git workflows.
- Collaborated with agile squads (Scrum) and contributed to DevOps culture.

HIFUZION SOFTWARE HOUSE

Position: Tech Lead | Full Stack Developer (Apr 2020 Mar 2023)
- Led modernization of legacy systems with Vue.js and Django.
- Built CI/CD pipelines and automation workflows with Docker and GitHub Actions.
- Developed analytics dashboards to support business decisions.

- Defined code standards, managed PR reviews and Git strategies.

- Worked closely with stakeholders to identify technical solutions.

SCHEFFER

Position: Software Developer | Systems Integration for Agribusiness (Oct 2011 Sep 2018)

- Developed robust integrations between ERP Sapiens and Gatec.

- Automated internal processes for better traceability and control.

- Delivered executive dashboards and strategic reports.

- Provided technical support and led validation testing.

UNISYSTEM SISTEMAS AGRICOLAS

Position: ERP Implementation Analyst (Jun 2010 Oct 2011)

- Customized ERP flows and configuration per client requirements.

- Built high-performance custom reports for operational and strategic use.

- Trained key users and followed up after system go-live.

SCHEFFER

Position: IT Support Analyst | Infrastructure and ERP Systems (May 2006 Jan 2010)

- Supported TOTVS Protheus and Unisystem Mosayco ERP systems.

- Managed internal infrastructure (networks, servers, desktop support).

- Implemented backup routines and improved information security.

TOOLS & TECHNOLOGIES

- Languages: Python (Django, Celery, Pandas), JavaScript (Vue, Nuxt3, React), Go, Delphi, C#

- Frontend: Tailwind CSS, PrimeVue, Vuetify

- Backend: Django Rest Framework, FastAPI, NestJS

- Mobile / PWA: Capacitor, Xamarin

- Databases: PostgreSQL, MySQL, Oracle, MSSQL, Firebird

- Tools: GitHub, Docker, Linux, NGINX, CI/CD, GitHub Actions

- Methodologies: Scrum, Kanban, Lean
